PROFILE

I find the intersection of technology and innovation highly intriguing, and I possess a natural inclination towards organization. I enjoy structuring information and processes with the aim of increasing efficiency and achieving desired outcomes. I am a fast learner with the ability to quickly acquire new knowledge and skills. My ability to quickly absorb new information adeptly helps me adapt effectively to the work environment and achieve the goals set before me.

SKILLS

- Communication
- Organization
- Adaptability

Programming Languages:

- C#
- C
- C++
- SQL

Technical knowledge:

- Visual Studio
- Git
- Unix
- Azure DevOps
- Azure Data Studio
- REST APIs
- Entity Framework
- S/4 HANA

EDUCATION

BSc in Computer Science

Department of Informatics and Telecommunications

National and Kapodistrian University of Athens, Greece

Oct 2019 – Jul 2024

- Final Grade: 7.14 / 10

In the course of my studies, some notable courses I have attended include the following:

- Computer Architecture (Assembly)
- Operating Systems (C)
- Data Structures (C)
- Algorithms and Complexity
- Object-Oriented Programming (C++/Java)
- Artificial Intelligence (Python)
- Database Systems & Implementation (SQL/C)
- Software Design & Development (StarUML, C++/Python)
- Systems Programming (C)
- Web Application Technologies (React/JavaScript)

LANGUAGES

- Greek – native
- English – C2 (Certificate of Proficiency in English)
- Albanian – native

WORK EXPERIENCE

Software Engineer

Benefit Software

Apr 2025 – Present

- Develop and maintain software solutions using C# and the .NET Framework
- Design and implement RESTful APIs using Entity Framework and Azure Data Studio
- Collaborate using Git and Azure DevOps Services in an Agile development environment
- Focus on backend web development through Visual Studio and modern architecture patterns
- Work extensively with ERP systems such as bSuite2 and bHive Connect, including cloud-based business process automation

SAP Consultant

Teka Systems SA (Viohalco Group)

Oct 2023 – Mar 2025

Implemented SAP S/4 HANA solutions for Sales & Distribution processes, focusing on: documentation, customization, testing, user training, and data migration via Fiori Apps.

Participated in major projects including:

- Autohellas Hertz – testing and go-live support
- Paliria – full-cycle implementation for Greece and Bulgaria
- Isomat – rollout for Bulgaria
